

Wontcha Come Home

G. Love & Special Sauce

Darlin' I've been waitin' while you've gone and done your changing
But you know that I don't got much time
Still everywhere I go I see people waiting just like me
Waiting for you to come on home
I love you darlin', don't leave me alone Wontcha come home now?
Wontcha come home now? Believe me girl I need your love
No one else will ever take your place Wontcha come home now?
Wontcha come home now?
Wontcha come home? Wontcha come home?
Wontcha come home? Wontcha come home?
Wontcha come home now? I know you got my tricks hiding up your sleeve
But wontcha take a ride and stay with me?
We can take a walk underneath the moonlight
While the guitar strums to the rhythm so tight There's no need for looking when you found what you need
'Cause I got you and you got me
There's no need for looking when you found what you need
So come on home darlin', set me free Wontcha come home now?
Wontcha come home now?
Wontcha come home? Wontcha come home?
Wontcha come home? Wontcha come home?
Wontcha come home now? Wontcha come home? Wontcha come home?
Wontcha come home? Wontcha come home?
Wontcha come home now? Wontcha come home? Wontcha come home?
Wontcha come home? Wontcha come home?
Wontcha come home now? Darlin' I've been waiting while you've gone and done your changing
But you know that I don't got much time
