

# This Old Heart

## Midland

I've been drowning  
Down and out and  
Giving myself a good dragging around and  
Living my life like an old country song, for too long  
I've been lonesome  
And out their on some world class benders that can get you put in fulsome  
Just feel like a little opportunity, is what I need  
This old heart's been kicked around  
This old heart's had all it can take  
It needs a little less wrecking, and a lot more affection  
Some loving and a little less ache  
This old heart  
This old heart  
This old heart needs a break  
So can I dance with you?  
Take a chance with you  
Maybe start running through the rain, romance with you  
Baby catch our howling in a winning streak, you and me  
This old heart's been kicked around  
This old heart's had all it can take  
It needs a little less wrecking, and a lot more affection  
Some loving and a little less ache  
This old heart  
This old heart  
This old heart, it needs a break  
Yeah, I need a break  
I need three lucky sevens  
To fall out of heaven right in my lap, just like that  
And I've got a feeling my luck will change with you, yes I do  
This old heart's been kicked around  
This old heart's had all it can take  
It needs a little less wrecking and a lot more affection  
Some loving and a little less ache  
This old heart  
This old heart  
This old heart needs a break  
Yeah, it needs a break  
Yeah, I need a break
