

Mary

[Sarah Slean](#)

She's looking out the north to a galaxy
A faithful boat trip 'cross a northern sea
Along a frosty window she writes her name
Oh daughter, this is how she became Mary, go ahead and have your little baby
Mary, toughest of the tough
But still a lady Oh, I've got all the courage I'll ever need
I wax poetic on my enemies
The century is raging but so are we
No matter what I know I got a symphony called Mary, go ahead and have your little baby
Mary, toughest of the tough
But still a lady Out of dark days
Stay up airplane
Take my ice sleigh
Stay up airplane Go ahead and have your little baby
Mary, toughest of the tough
But still a lady Mary, toughest of the tough
Toughest of the tough
