

# Love Don't Care About Me

## Los Lonely Boys

I was living on my own  
Didn't know my right from wrong  
Then you came my way, yeah When I looked into your eyes  
I saw paradise  
And I fell in love, love Together we were having fun  
In each other's arms, we felt like one  
It was just like a dream Never really crossed my mind  
There would ever come a time  
That you'd walk away, yeah How'd we go wrong?  
But tell me, why am I alone?  
I never really cared about love  
Now love, it don't care about me  
Love don't care about me, no, no Now I'm sitting all alone  
I guess you won't be coming home  
Oh, it breaks my heart I don't wanna say goodbye  
The thought, it only makes me cry  
But what else can I do, oh How'd we go wrong?  
But tell me, why am I alone?  
Never really cared about love  
No, I never cared about love I know that it's over  
But I can't bring myself to face goodbye, oh  
And I never cared about your love  
Now love, it don't care about me, no, no, oh Never really cared about love  
Now love, it don't care about me  
Oh love, it don't care about me
