

Care Bear

Dye Young

Verse 1:

The pills and the parties
The drugs and the dreams
I barely remember
They drift to far from me
Why don't you look scared
I just want you to care
The times when you need me
Are the only times you're there

Chorus:

I hate how you call
But I can't be without you
I live in these walls
But I can't breathe without you
And oh no
I just can't live
I just can't live
And oh no
I want to live
I want to live without you

Verse 2:

The faces in memories
Fold into the wind
I love how you fake it
I love to watch you sin
You're picture looks perfect
But guard from within
I need you to know now
You're never gonna win

Chorus:

I hate how you call
But I can't be without you
I live in these walls
But I can't breathe without you
And oh no
I just can't live
I just can't live
And oh no
I want to live

I want to live without you
Bridge:
Cause time and time again
You're floating in the wind
Chorus:
I hate how you call
But I can't be without you
I live in these walls
But I can't breathe without you
And oh no
I just can't live
I just can't live
And oh no
I want to live
I want to live without you (x2)
