Black And White

Subhumans

Silence - is no reaction
"Violence" - that one-word caption
Can you say it with just one word?
Unspoken - the sins that go unheardChorus:
Government... bullshit
Black and white... fightLook though this broken window
From normality into the ghetto
Broken through madness, hate, and boredom
U.K. - a disunited kingdomChorusEnquiries, but no solutions
Faceless, empty illusions
Reasons are always pushed aside
Remember the day the country diedRemember the day the country died
