

Night Magic

Angels of Babylon

when darkness is around you
it lets you see what it wants to
and none seen hand on the shoulder
midnight .got me colder

Chorus:

you know slower
night magic, night magic
night magic, night magic
night magic, night magic
night magic, night magic
shadows got in the corner
the unexplained panorama
whisper words in a dark room

Chorus:

you know slower
night magic, night magic
night magic, night magic
night magic, night magic
night magic, night magic
you have to beleive what you see
the answers nowhere .
open your eyes, open your mind
open the dark .what you .

Chorus:

night magic, night magic
night magic, night magic
night magic, night magic
night magic, night magic
