Do It Anyway

Ben Folds Five

You might put your love and trust on the line It's risky, people love to tear that down, let 'em try

Do it anyway

Risk it anyway

And if you're paralyzed by a voice in your head It's the standing still that should be scaring you instead Go on and do it anyway

Do it anyway

There will be times you might leap before you look There'll be times you'll like the cover

And that's precisely why you'll love the book

Do it anyway, do it anywayTell me what I said I'd never do

Tell me what I said I'd never say

Read me off a list of the things

I used to not like, but now I think are okaySometimes it's not subjective: wrong and right Deep down you know it's downright wrong but you're invincible tonight

So you, do it anyway

It's done, you did it

Despite your grand attempts the chips are set to fall
And all the stories you might weave cannot negotiate them all
So do it, anyway

Be honest, anyway. So tell me what I said I'd never do.

Tell me what I said I'd never say.

Read me off that list of the things that I used to not like but now I think are okay. Yea, yea, yea, yea

Woah, woah, woahIt's gonna be so very hard to say

And watch the trust and joy all drain from her innocent face

But you must do it anyway

It sucks, but do it anyway

Call it surrender but you know that that's a joke And the punchline is you were actually never in control Surrender anyway. Tell me what you said you'd never do

Tell me what you said you'd never say

Read me off that list of things cause I used to not like you Now I think you're okayEverybody knows that you just gotta do it anyway

Do it anyway (x8)

Cause you don't do nothing (Do it anyway)

To avoid self punishment (Do it anyway)

You won't do nothing (Do it anyway)

You won't feel nothing (Do it anyway)
Gotta do it (Do it anyway)
Do it, do it anyway (Do it anyway)
Ah (Do it anyway)
Do it anyway!
