

Suffer, to Return Harder

Terror

We are all human. We all make so many mistakes in our lives... don't let them add up and end yours. Pain makes great music. I know you can feel it to.

Suffer, to return harder.

I've got the scars to prove it.

Overpower.

This world never wanted me.

The product of hard luck.

The sum of all the shit that I've seen.

I choose to lay in waste because this world never wanted me.

I've felt addictions, I've felt so ugly and weak.

Seen some of the best die so young.

I've done things that sicken me.

Can't show regret, nothing to say.

This world never wanted me.

I've stepped on the ones I loved.

Seen friends take there own lives.

With the bottle, I'd drown the pain.

Face to face with guilt, I am shame.

I've got the scars to prove it.

They strengthen me.

Can't show regret, nothing to say.

This world never wanted me.

Suffer, to return harder.

I've got the scars to prove it.

Overpower.

This world never wanted me.

Can't show regret, nothing to say.

Suffer, overpower.

I've got the scars to prove it.

Just to return harder.

I've got the scars to prove it.

Overpower
