Body Instrument

Kevin Mccall

[Treasure Davis]Just like a guitar
you can play my body
before this trumpet starts
whisper to me softly, boy
tell me it's alright ohhh
lets turn the speed it
it'll turn the heat up
we ain't gotta be smokin
start it out slow than speed up
for me boy, ohhh
{Bridge}
Baby we can
listen to the sound that we make when I'm sexing you
my body all against your lips
play it over and over again
{Chorus}
Play me (play me)
make me feel everything you saying (saying)
show me how creative you are (you are)
let me send the key to your heart (your heart aye yeah)
so you can use your hands (use your hands)
use your lip (use your lips)
whatever you need to (woahh)
show me how creative you are (ohh oh show me how creative you are)
let me send the key to your heart (ohhh)
play my body like an instrument ohhh
play my body like an instrument ohhhhhh
[Kevin McCall]Imma put my hands on you
play ya body like a flute
imma whip my hands and lips at the same time
its a freaky love song
you can take the top I take the bottom
and i can go deeper it ain't a problem
cause i know you like my sexy baritone all in your ears

when i whisper to you baby bring your body here
to me
imma play you like a symphony yeahh
{Bridge}

Baby we can
listen to the sound that we make when I'm sexing you
my body all against your lips
play it over and over again
{Chorus}

let me send the key to your heart
so you can use your hands
use your lip
