We Intertwined

The Hush Sound

In a field outside of town we could always be alone
Carry a blanket maybe a basket - and that's it
Innocence was the key I was locked up never free
Until you turned me

Like vines we intertwined (like vines we intertwined)
Carelessly growing up and growing old
Life was on our tongues (on our tongues)
And it tasted heavenly so good

I wake up and I feel alone
I was just asleep
Right where I belong
Inside this sad, sad song

I knew this was a dream it was too good to be true
Coincidences were a bit much too
Who wants to wake up?
Who wants to lose it?
Who wants to live in this place?
I don't, so I'll be sleeping in

Like vines we intertwined (like vines we intertwined)
Carelessly growing up and growing old
Life was on our tongues (on our tongues)
It tasted heavenly so good

I wake up and I feel alone
I was just asleep
Right where I belong
Inside this sad, sad song

Blankets here keep me from cold
Holding tightly my pillows
Frantically searching for her
Inside my head she's somewhere
She is somewhere

I wake up and I feel alone
I was just asleep

Right where I belong
Inside this sad, sad song

I wake up and I feel alone
I was just asleep
Right where I belong
Inside this sad, sad, sad song
