

# Done Got Wise (feat. Myles Kennedy)

## Gov't Mule

Done Got Wise  
The way you do Everybody's talking  
Words are getting round  
I hear a whispering behind my back You're craving in the pippin  
Sleeping all over town  
You say it's a natural flex (?) I'm your new soldier, your new recruit  
Here to satisfy your every need You're waving in the shadows like a monkey in a suit  
Ready to do your dirty deeds Done Got Wise  
The way you do  
Done Got Wise Done Got Wise  
Find yourself another fool  
Done Got Wise Guess i should've listened  
To my friends when they told me  
Some people are all they ever gonna be  
Yeah Guess I was so taken by your charm and your beauty  
I couldn't see what's in front of me  
Now I'll be saved, Hallelujah  
I see the vision of what you put it down It's like they say  
You're a like little devil doyen  
Oh baby you better find yourself another clown Done Got Wise  
The way you do  
Done Got Wise Done Got Wise  
Find yourself another fool  
Done Got Wise Oh I've got to keep moving on  
Yeah Everybody's talking  
Words are getting round  
I hear a whispering behind my back Yeah, Yeah  
I've got to move on Done Got Wise  
The way you do  
Done Got Wise Done Got Wise  
Find yourself another fool  
Done Got Wise I've got to keep moving on  
Oh mama the walls are coming down  
I hear a whispering behind my back  
Bringing me down I'm set to ride  
I'm set to ride You can leave me out now  
But you'll wait to find now  
Oh you're gonna wait to find  
That I'm long gone Nanananana!
