

# Johnny

## Melanie Fiona

Hello, hello, hello, hello Oh not again, one thing lead to another way  
He said let's just be friends  
Right then and there I said to him Oh, thanks so much for nothing  
I hope you find that something  
Or whoever she is you think you're looking for Oh, don't do me any favors  
I guess I'll see you later  
Matter fact pull over and let me out this door Oh, Johnny took my heart  
And left me right here on the sidewalk  
On the corner is where he dropped me I'm saying oh, why did we have to part  
So now I'm dialing on my cellphone  
Begging Johnny baby, bring me back my heart Bring me back my heart  
Bring me back my heart  
Bring me back my heart, ooh Now I ask myself why, why did I let him go?  
Now I'm walking alone, alone in this cold  
Johnny the least you could've done was drive me home Oh, thanks so much for nothing  
I hope you find that something  
Or whoever she is you think you're looking for Oh, don't do me any favors  
I guess I'll see you later  
Matter fact don't bother knocking on my door Oh, Johnny took my heart  
And left me right here on the sidewalk  
On the corner is where he dropped me I'm saying oh, why did we have to part  
So now I'm dialing on my cellphone  
Begging Johnny baby, bring me back my heart Bring me back my heart  
Bring me back my heart  
Bring me back my heart, ooh Now I'm hiding, this is hard for me to do  
See I'm not that chick who sits around  
And waits all night for you but you're worth it Why you left me I don't know  
But I'll walk these streets all night  
Until I bring my baby home Oh, I need your loving  
You got that special something  
Who am I kidding  
Please Johnny, come back home Oh, Johnny took my heart  
And left me right here on the sidewalk  
On the corner is where he dropped me I'm saying oh, why did we have to part  
So now I'm dialing on my cellphone  
Begging Johnny baby, bring me back my heart Johnny took my heart  
And left me right here on the sidewalk  
On the corner is where he dropped me I'm saying oh, why did we have to part  
So now I'm dialing on my cellphone

Begging Johnny baby, bring me back my heartHey Johnny, you know who it is
