I Don't Care What It Takes

Plus One

Could it be yesterday
I coulda swore the same thing
Happened just the other day
Put on the spot
Now what am I gonna say
If I tell them who you are will they think that I'm insane
Do I really care?
Well yes and no, maybe so
'cause if they don't think you're real how will they ever know
So I won't stop
'cause even if they laugh at me
It doesn't change a thing about what I believe (what I believe)[chorus:]
I don't care what it takes
I don't care who it shakes
I don't care what they say
I'm gonna do it your way
Even if I'm afraid, don't wanna make you look fake
I don't care about anything it's not about meYou make me feel secure
You've given me your word and
Now I know I'm sure
I was so messed up
Like a wheel you turned around
My fate
When I thought you were just
Something up in outer space
But that's not the case
You're more real to me
Than what they make you out
To be on tv
Can you turn me up
'cause you know we're getting serious
When we talk about the invisible
It's so clear to us (so clear to us)[repeat chorus]I don't care about the things that
Used to keep me far away from you
They left me so confused
I don't care about the fear that tries to fill me up with so much doubt
It turns me inside out
So if they start to wonder
And they start to stare

You know it don't matter cause
I don't care[repeat chorus]
