Ain't Enough Whiskey

[Kid Rock](#)

They talk about money, talk about jobs
Talk about religion and playing the odds
Talk about freedom, talk about faith
They talking 'bout taking my guns away

Monkeys in suits writing laws and rules, they just bicker and fight
But I ain't gotta listen to them goddamn fools 'cause I know what's right

Ain't enough whiskey, women and wine
Ain't enough money, stitches and time
Moonshine honey, little white line
Ain't enough change to change my mind

Rock on

They talk about the greedy, talk about the poor
They talking 'bout sending my daughter to war
Talk about spending, talk about pay, they talk about defending the NSA
Monkeys in suits writing laws and rules, there's no end in sight
But I ain't gotta listen to them goddamn fools 'cause I know what's right

I might be crazy but I ain't no fool
I got them red-blooded white boy blues
