In A Photograph

Suicide Silence

Screaming your name into the sky
Into the sky
Screaming your name into the sky

Were you just going to sit back
And watch him die? (2x)

He screamed your name straight to the sky
He screamed your name everyday

Rescue him from the fall
Rescue him, take his hand (2x)
Take his hand (2x)

I remember the day and every sound and smell of it (2x)

I remember the day
Just like it was in a photograph (2x)
Where nothing ever changes and always stays the same
Where nothing ever changes
The memory stands still

You let him fall (4x)

Screaming your name into the sky
So I tried
And I screamed (2x)
Lord can you hear me

And I was left without reply so i walked away
You let him fall (3x)
You let him...

Without your response
I blame you
For this loss of love and life
