

# Say the Word

## Luis Russell & His Orchestra

Ooo, say the word  
And I'll be yours  
Say the word  
So I'll be sure  
That what I'm feeling goes for both of us  
I need to hear, you tell me what you feel is really love  
Say the word  
Open up  
Say the word  
What's the hol' hold up?  
Before I go and give off my heart away  
I need to know, I'm falling for a man who ain't afraid to  
Say the word  
(Say the word)  
And only it's just four little letters  
And if you really mean it  
You've got me forever  
And I've got so much love for you  
That all you gotta do  
Is, say the word  
And I'll be there  
Anytime, anywhere  
Say the word  
(Say the word)  
And only it's just four little letters  
And if you really mean it  
Ohh, you've got me forever  
And I've got so much love for you  
That all you gotta do  
Say the word  
And I'll be yours  
Say the word  
So I'll be sure  
Say the word  
And I'll be there  
Anytime, anywhere
