Crystal Ball

I See Stars

You can't run, you can't hide
I can hear every single thought
That you tried to hideI look in the mirror and a stranger stares on back at me
If these walls could talk they wouldn't speak the best of meTurn it around on me
Just to make it seem
I've done wrong
You can't just jump into my life as you please
You're the queen of my insanityI'll wait for you
No goodbyes, I'll see you soon
I will wait for you
You've made me better and I swear that's something I wont forgetI look in the mirror and a stranger stares on back at me
If these walls could talk
They wouldn't speak the best of meI'll wait for you
I'll wait for youCrystal BallYou can't run, you can't hide
I can hear every single thought
That you tried to hideLook into my crystal ball
Lust has a place for you, in her soulDo you know the things you did to me?
You made me fall in love and leave me to die
You were the one who broke our living fantasy
