

Over My Head (feat. Richard Marx)

Richard Marx

 baby, i'm tryin' to make some sense
 of all we should've learned from experience
 we win, we lose, we conquer and we fail
 one part serious, do or die
 another part crush in junior high
 i'm chasing my emotions like a taili can still move my fingers
but i can't seem to let gothe cold winds are blowing, i should be goin'
 i'm in over my head
 without even blinkin' you've got me thinkin'
 i would be better off dead
yeah, i'm in over my headyou made me weak, i made you laugh
 driving through the rain in a yellow cab
 the taste of your kiss is with me even now
 but this thing we've got goes by different names
 never two days in a row the same
i wanna stop feelin' this, but don't know howi see my legs and they're moving
 but i just can't walk awaychorusi'll say goodbye, but talk is cheap
 i count the memories in my sleep
i've had enough but i want moremakin' me weak, makin' you laugh
 driving through the rain in that yellow cab
 baby, your kiss is with me even nowchorus
