Tongue Tied

Stereo Skyline

Come on, yeah
Could call it a dream, well, you are my dream girl
Since you first came around and talked to me
But my words got choked up, wish I would've spoke up
But now you and me are only make believe
Because I'm tongue tied
I can't find the words to say that I, I need you by my side
But I'm terrified just to talk to you
I won't be satisfied 'til I'm tongue tied with you
So now it's a new day, better get outta my way
Gotta make you understand my master plan
I'm gonna practice my words, all my nouns and verbs
Anything I could do to get through to you
I'm gonna make you mine
No matter rain or shine
I just need some time
Because I'm tongue tied
I can't find the words to say that I, I need you by my side

But I'm terrified just to talk to you
I won't be satisfied 'til I'm tongue tied with you
Dude, seriously you should give her a call
Don't call her, don't call, it's ringing
Hello, hello, um, this is not funny
Okay you know what? I'm hanging up now
Knees weak, can't speak
I'm just stu-stuck on repeat
I'm thinking 'bout her 8 days a weeks
It's not enough for me
Because I'm tongue tied
I can't find the words to say that I, I need you by my side
But I'm terrified just to talk to you
I won't be satisfied 'til I'm tongue tied
Because I'm tongue tied
I can't find the words to say that I, I need you by my side
But I'm terrified just to talk to you
I won't be satisfied 'til I'm tongue tied with you
