Ocean Blue

ABC

Well you took me home
And you took me back
But deep down inside
The feeling just died and I
Couldn't see why?From indigo through to royal blue
I travel far but no one will do
Anytime, anyplace
Every shape every face
Brings memories of youBlue to be blue
To be blue
Ocean blue, ocean blue
Blue to be blue
To be blue
Ocean blue, ocean blueFair weather friends might drift away
When summer ends and skies burn gray
So I walk to the ocean
Pilot these shores
Just thinking of youIt's time we kissed the clouds goodbye
From now on end it's strictly blue sky
Come rain and shine
The outlook is still fine
I'm thinking of youBlue to be blue
To be blue
Ocean blue, ocean blue
Blue to be blue
To be blue
Ocean blue, ocean blue
Blue to be blue
To be blue
Ocean blue, ocean blue
Ocean blue, ocean blueOcean blue, ocean blue
Ocean blue, ocean, ocean
Ocean, oceanBlue to be blue
To be blue
Ocean blue, ocean blue
Blue to be blue
To be blue
Ocean blue, ocean blueI stand at the head of the queue
There's mutiny's every crew

Wishin' and wonderin' 'bout you
Ocean blue, blue
