

Preachin' Love

Donovan

Preachin' love, pure as a dove
I mean [Incomprehensible] what I said
I breathe in love straight from above
I know what to be true, yes, I do
I understand my congregation
Is made about the finer sex
I don't know about the segregation
Anyone may read the text
All I do is study you
In your natural habitat
And as I do, I find that you
Are all worth saving at that
So gather 'round the world and listen
Life is love and love is life
And as I see the teardrops glisten
I'll learn from the trouble and strife
I like to be beside the sea
Diggin' where we came or what for
I think that we were meant to be
That is all I ever saw
I feel so exhilarated
In love with love, with love
I'm never explicated
I just can tell you're enough, that's right
I like to be beside the sea
Diggin' where we came or what for
I think that we were meant to be
That is all I ever saw
I feel so exhilarated, yeah
In love with love, with love
I'm never explicated
I just can tell you're enough
All I do is study you
In your natural habitat
And as I do, I find that you
Are all worth saving at that
So gather 'round the world and listen
Life is love and love is life
And when you see the teardrops glisten

I'll learn from the trouble and strife
Preachin' love, preachin' love
Preachin' love, preachin' love
Preachin' love, preachin' love
I know what to be true, yes, I do
