

# Ride the Wild

## Descendents

Well you've messed around with all my friends  
and everyone you've seen  
You know you're tryin' to ride the wild  
when you mess around with me  
And all my friends tell me they see  
you out on the town  
And they all look down upon you with some  
pity and a frown  
Bankshot baby, saw through your eyes  
See ya' run around with a thousand other guys  
tell them all your newly thought up lies  
you don't want to be wanted by someone else new  
if you can't show some love for me then  
I don't want to see you  
Girl you got me runnin', why can't you see?  
Lately when I wake up it's on the wrong side of the bed  
and I know your voice distinctly, it reverberates my head  
And all my friends tell me they see you out on the town  
they see you're tryin' to ride the wild, but  
the word's been passed around  
Ride the wild baby, you like to ride all night  
Ride the wild baby, I'm sure you're not so tight  
come on baby, give me a try  
you don't want to be wanted, by someone else new  
if you can't trust a liar, then I don't want to trust you  
Girl you got me runnin', why can't you see?
