The Wall

Lit

A lifetime
In that moment
Forever
And we own it
I see it
And I'm in it
If only for a minute
I go back
I go back
The songs that we sang as we light up the night
We did it all wrong but we're doing alright
We held on tight through the rise and the fall
There's more behind that picture than the wall
The last time
That we stood there
The silence
We shared
We both knew why

We couldn't say goodbye
So we didn't even try
The songs that we sang as we lit up the night
We meant every word and we lived every line
The do or die in our eyes says it all
The ones that we loved had our backs through the fight
We did it all wrong but we're doing alright
We held on tight through the rise and the fall
There's more behind that picture than the wall
I go back
I go back
The songs that we sang as we lit up the night
We meant every word and we lived every line
The do or die in our eyes says it all
The ones that we loved had our backs through the fight
We did it all wrong but we're doing alright
We held on tight through the rise and the fall
There's more behind that picture than the wall
