

# Koala Koala

[John Williamson](#)

by John Williamson Koala Koala - we love you  
But we chop down your home  
And you run  
Koala, Koala - where do you go  
When we take your gum tree away Please don't run on the road  
And please don't cry  
Help is on its way  
We're gonna learn what makes you die  
Gonna send in some money today You can't dig a hole  
Or live in a roof  
Or hang from a big, fig tree  
If I plant you a special Eucalypt  
Will you come and live with me Koalas they used to be everywhere  
What a paradise it could be  
A walk in the bush could be heaven  
Bring the dreamtime back to me Yeah, we're going to learn what makes you die  
Gonna send in some money today
