

Get Away

House of Heroes

Distant sirens they call to me
I'm always running
I'm always running but I never get away
Tried to call you
Just let it ring
I had a lie
Another broken lie that I'm too tired to say You deserve more than these scars
More than a thug trying to sober up inside a stolen car
But that's how the colors run
On a streetlight fading out
I make a wish
To tell you I'm sorry
Tell you I'm sorry but I know that it's too late
I can see us and we're still kids
When we were dreamers
When we were dreamers of the way we'd make our name You deserve more than fallen stars
More than a thug trying to sober up inside a stolen car
But that's how the colors run We write our love
We choose our hearts
We fight our fights
We make our stars
Go write your love
And choose your heart
Go fight your fights
And make your stars
