Big Bang Generation

Duran Duran

Falling into space at the end of time
Black as the black in your eyes
Staring through a hole in the ozone
There's nobody home to play back your answer phone
Climax out of blue with just another high
No there must be something newNow that I'm so alien
Entering the atmosphere
Don't know what is waiting here, oh no
If there's nothing left to fear
When we come to gather in
The Big Bang GenerationTeardrops in the sky, bursting my eye
Sound of a morning sigh
This life is stranger than fiction
Surreal addiction, it's all I recognize
Beating of the habit, losing control
Where is it leading to?Now that I'm the alien
Entering the atmosphere
Don't know what is waiting here, oh no
If there's nothing left to fear
When we come to gather in
The Big Bang Generation
(Feel like I'm losing control)Big Bang Generation
(Now all our heroes are gone?)
Big Bang Generation
(Feel like I'm losing control)
Big Bang Generation
(Feel like I'm losing it)
We're gonna come together hereWhere're you coming from?
When we gonna burn out?
(Don't know)
Having so much fun
Greetings from the Big Bang GenerationBig Bang Generation
Need you in the Big Bang Generation
Together in the Big Bang Generation
Together with the Big Bang Generation
