

# Big Bang Generation

## Duran Duran

Falling into space at the end of time  
Black as the black in your eyes  
Staring through a hole in the ozone  
There's nobody home to play back your answer phone  
Climax out of blue with just another high  
No there must be something new Now that I'm so alien  
Entering the atmosphere  
Don't know what is waiting here, oh no  
If there's nothing left to fear  
When we come to gather in  
The Big Bang Generation Teardrops in the sky, bursting my eye  
Sound of a morning sigh  
This life is stranger than fiction  
Surreal addiction, it's all I recognize  
Beating of the habit, losing control  
Where is it leading to? Now that I'm the alien  
Entering the atmosphere  
Don't know what is waiting here, oh no  
If there's nothing left to fear  
When we come to gather in  
The Big Bang Generation  
(Feel like I'm losing control) Big Bang Generation  
(Now all our heroes are gone?)  
Big Bang Generation  
(Feel like I'm losing control)  
Big Bang Generation  
(Feel like I'm losing it)  
We're gonna come together here Where're you coming from?  
When we gonna burn out?  
(Don't know)  
Having so much fun  
Greetings from the Big Bang Generation Big Bang Generation  
Need you in the Big Bang Generation  
Together in the Big Bang Generation  
Together with the Big Bang Generation
