Two Brothers

Hanni El Khatib

I lost two brothers this year
I hope they died without fear
Cos' they know that I love them
No one above themI promise I'm near
With you in your hearts
even though you're on the ground
I know that you have found peace and it's clearJust know that we love you
Your brother still loves you
Your mother she loves you
Your children they love youI hope that you know...Just know that we love you
Your brother still loves you
Your mother she loves you
Your children they love youJust know that we love you
Your brother still loves you
Your mother she loves you
Your children they love youI hope that you know...INSTRUMENTALJust know that we love you
Your brother still loves you
Your mother she loves you
Your children they love youJust know that we love you
Your brother still loves you
Your mother she loves you
Your children they love youI hope that you know.
