

# Natural Thing

[John Fogerty](#)

Well, the flower was made for beauty  
And the bee was made to sting  
All around this world  
Honey, its a natural thingIt can shake the high and mighty  
Bring a strong man to his knees  
All around this world  
Honey, its a natural thingAn a man gets up in the mornin  
He got to find that tiger to tame  
All around this world  
You know its a natural thingBut a man alone aint nothin  
Every Tarzan needs a Jane  
All around this world  
Honey, its a natural thingWell, we got itWell, the little girls lookin so pretty  
They make a poor man feel like a king  
All around this world  
Honey, its a natural thingIt drive a man to cross the desert  
Or risk his life on a stormy sea  
All around this world  
Yeah, its a natural thingOh yeahWell, the flower was made for beauty  
And the bee was made to sting  
All around this world  
Honey, its a natural thingAll around this world  
Honey, its a natural thingWho, what to do me, what, yeah
