Tell Me a Lie

Janie Fricke

Tell me a lie
Say I look familiar
Even though I know
That you don't even know my name
Tell me a lie
Say ya just got into town
Even though I've seen you here before
Just hangin' aroundUmm, tell me a lie, say you're not a married man
Cause you don't know I saw you slip off your wedding bandTell me a lie
When you take me home
Tell me a lie
I don't really want to spend the night alone
Tell me a lie
Don't worry about my sorrow
You'll be long gone tomorrow
And you won't have to see me cry
Just tell me a lieOoh, tell me a lie
When our night is almost over
And make believe that it's for real
The way you want me to
Come on, tell me a lie
When you're lying close beside me
And whisper when you hold me
Sweet words, "I love you"
