

# Time Soon Come

Glenn Lewis

I've been on my best behave Slowly counting down the days  
My desire was strong and I know she gonna put me on  
She the kind of girl to make you change  
It's holding hands and dinner dates  
On top of the coast lay in sand  
But I know that she got needs and patiently  
I'm waiting till she says today is the day[Chorus]  
I put in the work , put in the work  
Anything you need consider it done  
Your wish is my command understand  
I'm hoping the time soon comes  
We can get down to the business  
Down to the business  
Down to the business of love  
I play by your rules keep it cool  
Long as the time soon comes I like my girls in high heels  
Supplying her designer thrill  
I'm confessing I invest for the turn,  
Even if they don't ask the love that's real  
I don't wanna wait in vein  
Looks so good tonight is a shame  
However long it takes to put the weight  
I just need to hear your call on my name[Chorus]  
I put in the work , put in the work  
Anything you need consider it done  
Your wish is my command understand  
I'm hoping the time soon comes  
We can get down to the business  
Down to the business  
Down to the business of love  
I play by your rules keep it cool  
Long as the time soon comes Have no fear now that the time is here  
I'll do you right my dear  
I know what you're searching for  
A non-selfish love of a life time  
I am here so let the fun begin  
'Cause I'm coming up that's square  
Gonna start all over  
Over and over again[Chorus]

I put in the work , put in the work  
Anything you need consider it done  
Your wish is my command understand  
I'm hoping the time soon comes  
We can get down to the business  
Down to the business  
Down to the business of love  
I play by your rules keep it cool  
Long as the time soon comes
