## Brand New Sin

I'm the one who hates you  
I'm the one who breaks you  
I'm the one above you, laughing  
And kicking you when you're downI...know...you  
You won't see it comin'You can run  
But you can't hide  
It only goes to show that you  
You can run  
But you can't hide  
I got you at nowhere  
You're fucking mine and mine aloneI'm the man in the nightmare  
Feeding you to Diablo  
I'm the one who's waiting  
To spit on you  
And punch you when you're walking awayI...know...you  
You won't see it comin'You can run  
But you can't hide  
It only goes to show that you  
You can run  
But you can't hide  
I got you at nowhere  
You're fucking mine and mine aloneAll the queen's horses  
All the men  
There ain't no mercy hereSad to meet you  
You're gonna spend  
You're gonna spend the rest of your life deadI wish you all the worst  
In every single endeavor  
And here's to bad fortune  
And hatred  
Forever and ever
