

Chain Reaction

Ke\$ha

Action

Chain reaction-action

Chain reaction-action I feel like I'm hallucinating

Yeah you're tripping me out

I can't control, it's you I'm craving

I can just tell you're down Come get me, let's get rowdy

Boy you look so damn good on me Back to the wall

On my silhouette

When you walked right by

Felt your breath on my neck

And it felt so deep

In a trance of a sleep

Have I seen you before?

Once in a dream Like a flashback, sneak attack, chain reaction

At the first sight you just might be the right one

You got something and again like a rerun

Try but can't explain this chain reaction You hit me like a shot of whiskey

You got me walking sideways

Tunnel vision feeling frisky

Want to get you stuck on replay I don't fall like this

I must confess you cast a spell up on me Shadows of us in the room of sweat You took my hand to the back and left

And it felt so deep

In a trance of a sleep

Have I seen you before?

Once in a dream Like a flashback, sneak attack, chain reaction

At the first sight you just might be the right one

You got something and again like a rerun

Try but can't explain this chain reaction Ohhh ohoh, chain reaction

Spin me around, all around

Oh feels like a lifetime

(I've been waiting)

One time I look goes down

Then they all hit the ground

(And not deliberating)

It all happens for a reason right?

Guess there's no need to fight it right?

Cause one thing leads to another,

Leads to another, leads to another Like a flashback, sneak attack, chain reaction

At the first sight you just might be the right one
You got something and again like a rerun
Try but can't explain this chain reactionChain reaction, this chain reaction
Chain reaction, this chain reaction
Chain reaction, this chain reaction
Chain reaction, this chain reaction
