Bad Bad World

Guster

I'm wide awake It's the middle of the night I'm standing in the dark Waiting for the lightAnd here I'll remain 'Til the sun is in the sky Standing in the dark Waiting for the lightThere is love There is peace in this world So take it back Say it's not what you thoughtGrab a hold Take these melodies with your hands Write a song to sing Isn't such a bad, bad worldAnd I say these times are strange I can feel it in the night I'm standing in the dark Holding up for the lightAnd here I'll remain 'Til the great sun shines Standing in the dark Waiting up for the light
