## **How Does It Feel**

## **Toto**

Morning's here I feel so far away
It seems like I felt this before
All alone sun burns my skin
I can't live with pain anymoreAnd with you on my mind
Thinking of all that we've said
Were they just words we'll live to regret
Why won't you stay?How does it feel to make me fall apart?
Could this be love or just a broken heart?
How do you feel

When you see me cryin' again? Times have changed, is love at an end? What makes us wonder why?

Rearranged, just pretend

I can't stand the thought of goodbyesAnd with you on my mind Thinking of all that we've said

Were they just words we'll live to regret

Why won't you stay? How does it feel to make me fall apart?

Could this be love or just a broken heart?

How do you feel

When you see me cryin' again? How does it feel to make me fall apart?

Could this be love or just a broken heart?

How do you feel

When you see me cryin' again? How does it feel to make me fall apart? Could this be love or just a broken heart?

How do you feel When you see me cryin' again?
