

# In Our Dreams

## Black Stone Cherry

If the world fell into the sea  
My feet are wet today  
My tears have soaked the pavement  
My minds running again  
And all my hopes are fading  
If this is the way I don't want to stay  
If the world fell into the sea  
Would you hold on and drown out here with me  
If it's over I guess we're going under  
Please help me  
The only place that's safe  
Is right here in our dreams  
Inside this desperate time  
You've been my one true haven  
And I just realised  
There's so much left worth saving  
If this is the way I don't want to stay  
If the world, fell into the sea  
Will you hold on and drown out here with me?  
If it's over, I guess we're going under  
Please help me  
The only place that's safe  
Is right here in our dreams  
Under the seas  
The only place that's safe  
Is in our dreams  
In our dreams  
Yeah  
If the world  
Fell into the sea (fell into the sea)  
Would you hold on? (Would you hold on?)  
And drown out here with me (drown out here with me)  
If it's over  
I guess we're going under  
Please help me  
The only place that's safe  
Is right here in our dreams  
In our dreams
