

Rally the Youth

Madison Rising

Listen up little man
You can't just dream about tomorrow, no
You've got to take a stand to make it happen
Shut off the TV and lets get packing Rally the Youth come on let's go
Been asleep for way too long
The world is changing so stop complaining
Before it's too late Rally the Youth come on let's go
Been asleep for way too long
The time has come to break the chains
That bind our freedom 9-5 you think you've done all that's needed
Judging by you're paycheck do you think you've succeeded?
There's more to life than work without meaning
People are in need can't you hear them all screaming?
Rally the Youth come on let's go
Been asleep for way too long
The world is changing so stop complaining
Before it's too late Rally the Youth come on let's go
Been asleep for way too long
The time has come to break the chains
That bind our freedom Bind our freedoms
They bind and bind our freedoms Rally the Youth come on let's go
Been asleep for way too long
The world is changing so stop complaining
Before it's too late Rally the Youth come on let's go
Been asleep for way too long
The world is changing so stop complaining
Before it's too late
Rally the Youth come on let's go
Been asleep for way too long
The time has come to break the chains
That bind our freedom Bind our freedoms
Bind our freedoms
The time has come to break the chains
Break the chains
Our freedoms
Our freedoms End
