You Were the One

The Stereo

wait
everybody wants to be with you
but everybody knows there's more to you
than what you say there is, we know it's true
you
you didn't want to know we know it's you
you didn't have guts to say what's on your mind
and it's too late now, you're out of time
you wanted, to be there
say i'm wrong, you know it's true
you were the one, you were the one
i
i didn't hear a word of what you said
i'm sorry but i can't explain the things you do
you want to stay, but walk away
we
we didn't have guts to see it through
we didn't have guts to say what's on our minds
and it's too late now, you're out of time
everybody wants to be with you
but they don't know us or what we've been through
you were the one
