# Weather the Storm

## Sparta

And you can hold this moment
Catch your breath, you feel faint
Don't be brave
Then you made, it's hard to takeThey say it's never enough
It's never enough, you got to look forwardWith your hands out
Reach forwardAnd life in this storm has lost you
I'm sure the summer sun left you blind
It all was to make the promises
With you and meYou say it's never enough
It's never enough, now to look forwardWith your hands out
Reach forwardWith your hands out
Reach for
With your hands out
Reach forward
