

# Fortunate Fool

**Jack Johnson**

She's got it all figured out  
She knows what everything's about  
And when anybody doubts her  
Or sings songs without her  
She's just so, hmmShe knows the world is just her stage  
And so she'll never misbehave  
She gives thanks for what they gave her  
Man they practically made her  
Into a, hmmBut she's the one that stumbles when she talks about it  
The seven foreign films that she's checked out  
Such a fortunate fool  
She's just too good to be true  
She's such a fortunate fool  
She's just so, hmmShe's got it all figured out  
She knows what everything's about  
And when anybody doubts her  
Or sings songs about her  
She's just so, hmmBut she's the one that stumbles when she talks about it  
So maybe we shouldn't talk about  
Such a fortunate fool  
She's just too good to be true  
She's such a fortunate fool  
She's just so, hmm
