Silverhead

Grim Skunk

Silverhead with your head in the clouds
Aaah you try to be wild
Yeah lead the party on
And you better not let them know
Who you really are
Silverhead and it's as hard as stone
Why don't you leave me alone
Aaah you'd better think twice
'cause you've been a tricky girl
In this oxygen world
Silverhead...
You got a silver smile
Aaah it's driving me wild
And I want you all alone
And you tricked me again
Silverhead...
With your head in the clouds
Yeah the music is loud
And I've seen you hanging around
With that evil crowd
The party rages on
