Over You

Will Young

And I do like a little conversation
And it's true I don't like to be kept
But with you it's a dangerous combination
And I know I'd be out of my depth
It's that time, ooh, to let it out
I've got a ruse to get me by yeah
Chorus
A littlle bit of loving girl is all I can give
Lots of pretty faces suit the way that I live
Pull yourself together girl
And get on over here
Time after time, it's not right but i've
Seen the signs now I'm over you
Over you
Now I know I've been feeling kinda kooky
With sigh you've fallen in love

I won't lie, it's an awkward situation
But I'll try to tell you again
It's that time, ooh, to let it out
I've got a ruse to get me by yeah
Repeat chorus
Over you
Yeah, yeah, yeah, yeah
Yeah, it's that time, ooh, to let it out
I've got a ruse to get me by yeah
Repeat chorus
Over you
Over you
Over you
Yes, it's true
