

# Culture Vulture

## Good Throb

You ask me what I did today but I'm not gonna say  
I was watching something in a really really really big way  
I'm asking you questions better tell me something good  
Fifteen minutes aint fast enough Culture vulture Smashing things on the weekends to get my kind of thrills  
Smashing things on the weekends to get my thrills  
I use sensation to get my stimulation  
My stimulation it spells sensation I need sensation to get my stimulation  
My stimulation is spells sensation  
More, more, more of what? I need sensation to get my stimulation  
My stimulation is spells sensation  
More more, more of what? Another necessity left here on the shelf  
Do it fast or just tag along  
Another necessity left here on the shelf  
Do it fast or just tag along In the evening when I come home  
You ask me what? What did I say?  
Well, I'm not gonna say  
Anno dommini but add another d  
Attention deficiency, that's me  
I'm the disease of the century but I don't care  
Anno dommini but add another d  
Attention deficiency, that's me  
I'm the disease of the century but I don't care Stop flicking my channels with your remote control  
Stop flicking my channels with your remote control  
Stop flicking my channels with your remote control  
Defining the world through regurgitated, updated, mediocre, mainstream  
media information  
that smacks of sensation You ask me what I did today but I'm not gonna say  
I was watching something in a really really really big way Culture vulture  
Hey you culture vultures You ask me what I did today but I'm not gonna say  
I was watching something in a really really really big way Culture vulture  
Hey you culture vultures You ask me what I did today but I'm not gonna say  
I was watching something in a really really really big way Culture vulture  
Hey you culture vultures
