

# Longest Highway

[Alison Krauss](#)

Lost in the silence, surrounded by daydreams  
I'm holding that someone who's holding my heart  
Thrilled with the memory of the smile that you gave me  
Gives a close feelin', though we're far apart  
The longest highway runs between us  
But you're just a heartbeat away  
When I think of you, my heart knows no distance  
I've got you with me every day  
If I could be anywhere I'd truly be with you  
Then once feel the embrace of your hand in mine  
The longest highway can sure seem forever  
Through every daydream I feel closer each time  
The longest highway runs between us  
But you're just a heartbeat away  
When I think of you, my heart knows no distance  
I've got you with me every day
