

Gamma Ray (Remastered 2016)

Gamma Ray

The world's desperated with irony,hunger and corruption
The eastern and the africans too
Are going to repeat the history of all wars
And our industry supplied them with arms
Everybody knows but nobody can do anything against it
The fall of society is on the makeWell sometimes, sometimes I try to drop a list
I try to find out what they have done
I thought of honourable murderers you know
Like Jonah's hand might /???/ around usAnd anytime, everywhere in the whole world
Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray
Made of your existence Gamma Ray money and our failing
I've waited for - to find Gamma RayWithout a body I could fly around the world
Destroying arms, destroying rockets
Mix all complexions of the whole human race
We all would turn to shadow peopleEverybody, everywhere in the whole world
Gamma Ray, Gamma Ray...[Solo Kai]Everybody, everywhere in the whole world
Gamma Ray, Gamma Ray...
