

# Sing for the Song

## Badfinger

Words won't come together  
And they're very hard to me  
Peace of mind is all I have to win  
Tuning doesn't matter just as long as I can sing  
Get myself together for the song  
And we can all sing, sing for the song  
And we'll all bring, bring it along  
Yes, we'll all sing, sing for the song  
And we'll all bring, bring it along  
Now, I get to feeling that it may be just a dream  
May be just another foolish game  
As long as we all sing it when we have no time to think  
Have no time for bringing down our friends  
And we can all sing, sing for the song  
Yes, we'll all bring, bring it along  
Yes, we'll all sing, sing for the song  
And we'll all bring, bring it along[piano solo (Pete Ham)]And we can all sing, sing for the song  
And we'll all bring, bring it along  
And we'll all sing, sing for the song  
And we'll all bring, bring it along  
And we'll all sing, sing for the song  
And we'll all bring, bring it along  
And we'll all sing, sing for the song  
And we'll all bring, bring it along  
And we'll all sing, sing for the song  
And we'll all bring, bring it along.
