Rainbow Warrior

Andromeda Mega Express Orchestra

September 27th 2010. It is the 21st century. Mankind has driven into insanity.
Planet Earth is being abused and tortured by the evil human traits.
Selfishness and insensitiveness suppress our very own divine nature.
Something has to change. Something has to move.
But not us.
We need someone to do the job for us,
so we don't have to move our lazy asses out of our rotten illusory world.
We need someone else to do the work.
We need a brave hero who can pull us all along.
Oh glorious saviour where are you?
We need you. We long for you. We desperately call youRainbow Warrior!
Rainbow Warrior!
Rainbow Warrior!
We need you now!Rainbow Warrior!
Rainbow Warrior!
Rainbow Warrior!
We call you now!Rainbow Warrior!
Rainbow Warrior!
Rainbow Warrior!
We call you now!Mother nature,
why do we hate her?
Mother nature,
we secretly love you.Mother nature,
she's in danger!Of becoming like us,
we are ugly and fat
and distorted and not just that!Our stupidity grows with every dollar we earn,
Greed and ignorance, thats what we learn!Nuclear powerplants, oil spills and feeding lots -
Critical signs of a world that is tumbling down.
Time to read newspapers, blogs and tweets!
Oh, mighty oracle, all-knowing oracle,
tell us whats good and bad!
Choose our destiny!We keep on searching
for higher profit.
while everythings going to hell.
Were lovin it!We make sure nobody thinks differently
We take care that you and your family
Will become like the pieces of meat you eat
Like the ones we are cloning, Repeat! Repeat! (3x)
I'm ***in' it!

Like The ones we are cloning to make you to meatSo, lets sign petitions and stuff our mouths with organic chocolate
and tune in to our favorite show!Rainbow Warrior!
Rainbow Warrior!
Rainbow Warrior!
We need you now!Rainbow Warrior!
Rainbow Warrior!
Rainbow Warrior!
We call you now!We need you, we need you!
To come and protect us!
The situation is dangerous!The shadow surrounds us!
But you have to keep going!
You know the colours need light to shine!We call you, we call you!
We need you, we need you!
Please listen and follow our desperate call!
