

# Nose Over Tail

## Alkaline Trio

Crack my head open on your kitchen floor  
To prove to you that I have brains  
Meanwhile tin men are led by little girls  
Down golden roads that lead to nowhere  
Fine time to fake a seizure  
Feel your mouth on mine, you're saving me  
Whatever happened to that silly dream you had?  
I want to make it real, I'd love to rub your back  
Like a plane crash that never hits the ground  
I fall in love with you, I'm nose over tail for you  
Your voice like the sound of sirens  
To a house on fire, you're saving me
