

Mr. Wonderful

Derik Nelson

I'm tracing the shape of your body by the light of the digital clock
What started out as innocent conversation has ended up as dirty talk
You mention you're a pretty light sleeper
Did I mention that I don't mind
Coz the sheep you plan on counting tonight are gonna be hard to find

Lets throw our hearts into the wind
Along with all our fears lets write our own beginning
I'll be Mr Wonderful coz I wanna make you comfortable
And baby once you shut your eyes I'll meet you
I'll meet you at the finish line
Da-da-da-da-da-da

This race that we're running is a stunning understanding of who we are
We're taking turns taking the lead
But we're careful not to let each other get to far
Coz I'm, I'm not good with balance so you better come catch me fast
I'm about to fall deep into love with you and I wanna make every little minute of it last

So lets throw our hearts into the wind
Along with all our fears lets write our own beginning
I'll be Mr Wonderful coz I wanna make you comfortable
And baby once you shut your eyes I'll meet you
I'll meet you at the finish line

Breathe in girl there's a lot of air to share
We're on our way to love in fact I think we're almost there
You're the only thing that makes sense you're the only thing that's right
Your skin as smooth as midnight your eyes reflecting candle light
So come and lay beside me I'm starving for you kiss
I know you're scared to cross that line but if this isn't love what is
Yeah yeah, no ohh

Lets throw our hearts into the wind
Along with all our fears lets write our own beginning
I'll be Mr Wonderful coz I wanna make you comfortable
And baby once you shut your eyes I'll meet you
I'll meet you at the finish line
And I'll be Mr Wonderful, we'll make this wonderful
ohh ohh yeah
